Education

DigiPen	Bachelor of Arts • Distinction
User Experience & Game Design	Singapore • 2022-2026
Singapore Polytechnic	Diploma
Business Information Technology	Singapore • 2017-2020

Experience

Central Provident Fund Board	May 2026 – Present
Experience Designer	
- Designed and shipped two public-facing interactive experiences for CPF Jurong, independently taking projects from early concepts and storyboards through UI/UX, development, playtesting and deployment using Figma, Unity and C#, with experiences designed for seniors and less digitally confident members. - Worked within tight delivery cycles, rapidly turning stakeholder requirements into playable prototypes, presenting iterations for review and implementing design and development changes.	
Central Provident Fund Board	September 2025 – April 2026
Service Design Intern	
- Redesigned an internal FormSG frontline workflow by consolidating fragmented forms, introducing conditional logic and standardising inputs. Prototyped and tested the new flow during peak public operations to reduce unnecessary cognitive load. - Conducted on-site research, interviews, usability testing and observation with CPF members.	
Ministry of Defence	June 2025 – August 2025
UI/UX and Data Science Intern	
- Collaborated cross-functionally with product managers and developers to design and prototype two greenlit digital products in Figma, translating operational requirements into validated, implementation-ready experiences. - Served on the organising committee for the MINDEF–DSTA Hackathon, coordinating across teams to facilitate ideation, rapid prototyping and cross-agency collaboration.	
Oversea-Chinese Banking Corporation	March 2019 – August 2019
Design Intern	
Applied user research, behavioural analysis and design thinking to identify friction across digital banking experiences, translating customer insights into opportunities for product and service improvements.	

Tools

Design & Prototyping
Figma, FigJam, Adobe XD
Adobe Creative Suite
Photoshop, Illustrator, After Effects, Premiere Pro, Substance Painter
3D Modelling
Autodesk Maya, Blender
Game Development
Unity, Godot
Programming
C#, JavaScript, TypeScript, Next.js, HTML, CSS, React.js
AI & Coding Tools
Codex, Cursor, Claude Code

Skills

UX & Product Design
User Research, User-Centred Design, Interaction Design, Wireframing
Experience Design
Service Design, Gamification, Interactive Experience Design, Accessibility Design
Product Development
Cross-Functional Collaboration, Design-to-Development Handoff

Awards

MINDEF–DSTA <AI>Debate	2025
Finalist	
GovTech-SIT HackRift	2023
Finalist
